WHAT'S A GPS?

Throughout this guide, you'll see various photos of a Global Positioning System (GPS) receiver. A GPS unit connects to a satellite navigation system to give you precise location coordinates anywhere on Earth. This handy receiver works by communicating with a network of at least two dozen satellites in Earth's orbit; through a process known as *trilateration*, it calculates its own position based on longitude, latitude and height coordinates.

Armed with these coordinates, you can find any spot on Earth within about 10-meter accuracy. So when we say, "Find what you're looking for in Montana," we mean it.

HISTORY AND CULTURE

A true vacation means the chance to explore different experiences, different cultures, different times—places and destinations that whisk you away from the here and now.

Montana has those kinds of places.

The myths and legends of the American West are still alive here. Montana's capital city of Helena began life as the site of a silver strike. Historic Virginia City and Nevada City are filled with tales of lynchings and other rough-and-tumble stories of Montana's frontier days. A working railroad connects these two ghost towns, and other attractions include summer theatre featuring vaudeville entertainment. (And they're just two of more than a dozen well-preserved Montana ghost towns.) Butte and Anaconda are famous for the Copper King wars; Billings began as a railroad town and Miles City still reigns as "Cowboy Capital of Montana."

Historic trails wind their way across the state. Lewis and Clark spent a lot of time bringing their historic expedition through Montana; in fact, nearly half of their campsites are within Montana's borders. The Nez Perce National Historic Trail ends in Montana, where Chief Joseph uttered his now-famous words: "I will fight no more forever." And Custer, perhaps the most famous lieutenant colonel in history, made his "last stand" at the Little Bighorn Battlefield National Monument.

The arts thrive, as well. Art museums such as the Yellowstone Art Museum in Billings and the C.M. Russell Museum in Great Falls celebrate the creative spirit. Legendary authors such as A.B. Guthrie, John Steinbeck and Norman MacLean have written praises to Montana, while local artists and craftspeople create everything from sculptures to quilts. Professional theatre troupes, city symphonies, ballets, opera companies and other artistic organizations perform throughout the state, year-round.

The state has even spawned new kinds of cultural attractions. "Hands of Harvest," for instance, has created cultural loop tours, which include more than 125 total stops, connecting visitors with artists, craftsmen, ranchers and farmers, Plains Indians and outfitters. Meanwhile, the newly-established Montana Dinosaur Trail offers 14 stops where you can see important dinosaur fossil discoveries (including museums, dig sites and fossil preparation stations), and maybe even take part in an authorized dino dig.

It's no wonder that a state so rich in natural beauty continues to inspire the creative spirit.

ADVENTURE

Adventurous souls will find other kindred spirits in Montana. After all, with more than 145,000 square miles of land—much of it publicly accessible in parks, forests and wilderness areas—Montana is big enough to satisfy all those who thirst for something different, something challenging, on their vacations.

Sure you can visit Montana by driving across it. But if driving bores you, try other modes of transport. Horseback riding is as authentically Western as you can get, and Montana is filled with guest ranches, guides and miles of trails where you can hoof it. If you'd rather use your own feet, try hiking or mountain biking in our national parks, national forests, state parks and recreation areas. Chances are, you won't be sharing many trails.

But there's no need to stick to land-based routes; Montana has 1,400 square miles of lakes and streams, perfect for rafting, canoeing or kayaking. Speaking of perfect, that's the word many people use to describe Montana's fishing opportunities: the state ranks among the most famous worldwide destinations for fly fishing. Anglers can also lure numerous species in warm water fisheries, including 100-plus-pound paddlefish on the mighty Yellowstone River.

You might think a state as green as Montana has to have some phenomenal greens. And you'd be correct, because Montana is home to more than 70 public, semi-private and resort golf courses—the kind of challenging and breathtaking courses that spawn instant fans. The Flathead Valley, for instance, has been ranked one of the "50 Greatest Golf Destinations in the World" by *Golf Digest*.

Winter brings downhill and cross-country skiing, snowmobiling, snowshoeing, ice fishing, ice sailing and even ski-joring (in which a horse pulls a skier through an obstacle course).

WILDLIFE

With apologies to Dr. Dolittle, Montana is the true place to walk with the animals. (Just don't get too close, because you'll want to keep our wildlife—and yourself—safe. See our online wildlife viewing tips at **wildlife.visitmt.com**.)

Buffalo freely roam Yellowstone National Park and the National Bison Range near Moiese. Grizzly bears explore the wild backcountry of Glacier National Park and wilderness areas. Bighorn sheep and mountain goats scale the craggy peaks of the Continental Divide. Trumpeter swans feed in the marshes of glassy-smooth lakes.

In fact, Montana is home to more than 100 mammal species and 250 bird species. With the ecosystems surrounding Yellowstone and Glacier national parks, Montana is one of the most biologically diverse regions in the United States.

So if you want to see animals, come to Montana and go wild.

GLACIER NATIONAL PARK

Glacier National Park was the world's first International Peace Park (a distinction it shares with Waterton Lakes National Park, its Canadian neighbor to the north). And after visiting this park's more than one million acres of natural wonder and beauty, you'll agree that it is, indeed, a place of peace. Glacier itself is one of the largest intact ecosystems in the continental United States, meaning wildlife—bighorn sheep, moose, grizzly and more—thrive within the park's borders.

Glacier's most famous attraction, the 52-mile Going-to-the-Sun Road, takes you between the park's East and West entrances; along the way, you pass gorgeous granite peaks, waterfalls, serene lakes, historic lodges and more as you make your way to the top of the Continental Divide at Logan Pass. The visitor center at Logan Pass points you down trails to backcountry destinations such as turquoise alpine lakes and backcountry chalets.

In fact, hiking is perhaps the singular attraction of Glacier National Park. Considered one of the premier hiking destinations in North America, it offers more than 700 miles of trails, ranging from handicap-accessible trails through cedar groves to rugged backcountry hikes atop steep cliffs.

But if you don't want to drive or hike, there are other wonderful ways to see Glacier. Try the famous open-topped "Red Jammer" buses, take a guided horseback ride, climb aboard a scenic boat tour at Lake McDonald or St. Mary Lake or hit the park when it snows and bring along your skis or snowshoes.

The park also has more than 350 structures on the National Register of Historic Sites, and six National Historic Landmarks. Perhaps all it's missing is a bit of your personal history. Visit **www.nps.gov/glac** for more information.

YELLOWSTONE NATIONAL PARK

Yellowstone isn't just a park. It's an icon of nature and the American West—people from around the world have images of Old Faithful and the Lower Falls of the Yellowstone River etched into their minds, whether they've ever visited or not. Amazingly, Yellowstone is one of those wonders that exceeds the imagination: after seeing Yellowstone for the first time, visitors are invariably even more enchanted by this magical place.

For starters, Yellowstone is part of the most active geothermal region on earth. Within the park's boundaries are 10,000 thermal features and roughly 250 geysers—that's more geysers and hot springs than the rest of the world combined. Foremost among these, of course, is Old Faithful. Approximately every 90 minutes, Old Faithful erupts in a plume that reaches 90 to 184 feet. Nearby, Steamboat Geyser, considered the world's tallest plume geyser, has reached heights of more than 400 feet.

Geysers are only part of the Yellowstone story, however. The Grand Canyon of the Yellowstone River features scenic vistas and two waterfalls, including one of the park's most photographed features: the 308-foot-high Lower Falls of the Yellowstone. Not far away is giant Yellowstone Lake at 136 square miles.

Of the park's 2.2 million acres, more than 99% remains undeveloped; instead, it serves as wild and free country for huge forests, 58 mammal species, 290 bird species and 18 fish species. Popular and plentiful, animals include buffalo, elk, moose, deer, wolves and bear. In fact, Yellowstone is home to the largest concentration of free-roaming wildlife in the earth's entire global temperate zone.

All that open space means room for you to roam and play, as well. While in Yellowstone, you can hike, bike, boat, fish (permit required) and ride horses in the warmer months; in the winter, try cross-country skiing, snowmobiling (restricted access) and snowcoach tours.

Three of Yellowstone's five entrances are in Montana: the North Entrance at Gardiner, the Northeast Entrance at Cooke City and the West Entrance at West Yellowstone. And the journeys that take you to each entrance are filled with other wonders and activities. So no matter when, or how you go to Yellowstone, getting there is half the fun. Visit **www.nps.gov/yell** for more information.

LEWIS & CLARK

From 1804 to 1806, Meriwether Lewis and William Clark led what would become perhaps the most famous expedition in U.S. history: the Corps of Discovery, commissioned by President Thomas Jefferson to find a dreamed-of northwest water passage. And even though they didn't find any such passage, they did discover what would later become present-day Montana. In fact, during their journey, they spent more time in Montana than in any other U.S. state; nearly a quarter of the route is here, as are half of the recognized campsites.

As the expedition commemorates its bicentennial, Montana is again a central part of the Lewis and Clark travels. From July 22-25, 2006, Montana will host "Clark on the Yellowstone," a National Lewis & Clark Bicentennial Signature Event. Nationally, it's known as a signature event because of its significance along the Lewis & Clark Trail; locally, it's known as a signature event because it's literally a celebration of William Clark's signature. On July 25, 1806, he scrawled his name, along with the date, in the sandstone face of Pompeys Pillar (which Clark named for Sacagawea's son), about 30 miles outside of present-day Billings. Today, you can still see Clark's signature in the rock.

But that's just the beginning of the Lewis and Clark experience in Montana. Across the state, you'll find more than three dozen discovery points along the Lewis & Clark Trail, ranging from the National Lewis and Clark Interpretive Center in Great Falls to the site of the expedition's only fatal encounter with an Indian tribe on the Two Medicine River. Montana is also the place where Sacagawea was amazingly reunited with her brother. In August, 1805, as Lewis and Clark spoke with members of the Shoshone tribe, Sacagawea recognized the chief as her brother, whom she hadn't seen for five years. This amazing bit of luck led the expedition to name their camping spot Camp Fortunate, about 20 miles south of present-day Dillon.

As you follow in the footsteps of Lewis, Clark and Sacagawea, you'll also find several annual Lewis and Clark events. In addition to "Clark on the Yellowstone," highlight events for 2006 include "Lewis & Clark in the Rockies" from June 21-July 9, with exhibits and programs all across western Montana; and the Corps of Discovery II Tour, a national traveling exhibit that will visit Missoula, Lincoln, Browning, Crow Agency, Billings, Miles City and Sidney in June, July and August. In addition, communities such as Cut Bank, Dillon, Glendive, Great Falls, Three Forks and Twin Bridges will be hosting Lewis and Clark themed festivals and celebrations.

Visit **www.lewisandclark.bicentennial.com** for more information.

THE NEZ PERCE TRAIL

In the summer of 1877, five bands of Nez Perce Indians fled their homeland in Oregon and Idaho to escape war. For six months and 1,170 miles, 800 Nez Perce outmaneuvered the U.S. Army in nearly a dozen battles. Today, you can follow the Nez Perce or "Nee-me-poo" National Historic Trail through Oregon, Washington, Idaho, Wyoming and Montana.

You'll find many significant stops along the Nez Perce Trail in Montana. The Nez Perce entered Montana at Lolo Pass and easily bypassed a blockade at "Fort Fizzle" near Missoula. At Big Hole National Battlefield near Wisdom, Colonel Gibbon's forces launched a savage surprise attack on the sleeping camp, only to be turned back with heavy losses. At Canyon Creek Battlefield near Laurel, U.S. Army forces were again foiled in their attempt to capture the Nez Perce between the Yellowstone and Musselshell rivers. The Bear Paw Battlefield, 16 miles south of Chinook, is the site of the Nez Perce surrender on October 5, 1877 and is part of the National Park Service. Other sources of information are:

MONTANA'S INDIAN COUNTRY

Montana's Indian reservations are rich strongholds of Native American heritage. They are places where Indian culture can be experienced in sacred landscapes and at annual gatherings–where traditional dress is worn and tribal customs are carried on and passed down as they have been for thousands of years. Remarkable art and crafts reflect a unique connection between Montana Indians and the natural world.

There are seven reservations in Montana, representing eleven tribes. Each features a wealth of cultural institutions such as the Museum of the Plains Indian in Browning, Chief Plenty Coups State Park in Pryor, St. Labre Indian School at Ashland, and the Fort Peck Assiniboine and Sioux Culture Center and Museum in Poplar.

While Montana's Indians have worked to adapt to the changing world around them, they have kept the rich culture and traditions of their past. This heritage contributes immeasurably to the cultural flavor of Montana.

The reservations have special social and cultural events and activities. Tribal powwows, hand games, shinny games and rodeos are social events usually open to the public. When visiting these events and public places such as museums, churches and tribal facilities, it is important that guests show respect and courtesy.

Reservations are important, not only because Native Americans have strong spiritual ties to the land, but because reservations have become the Indians' last retreat and the last chance to preserve their culture and flourish for future generations.

FUN FACTS

SPEAKING SPANISH

Montana gets its name from the Spanish word meaning "mountain." The name was suggested by James M. Ashley, the legislator who sponsored the bill giving Montana territorial status.

FROM A LOWLY GULCH TO A CAPITAL CITY

Montana's capital is Helena (pronounced HELL-uh-nuh), a city of about 25,000. Helena began as a mining camp in the 1860s along "Last Chance Gulch," now part of the city's downtown.

WHAT'S IN A NICKNAME?

Montana's state nickname is the "Treasure State" because of its rich mining resources. It's also known as "Big Sky Country" for its majestic and spacious skies.

HISTORY MYSTERY

In 1864, a posse calling themselves the Montana Vigilantes strung up more than 22 outlaws in and around the mining towns of Bannack and Virginia City. When tracking outlaws, the Vigilantes were known to hang warning posters displaying a skull and the numbers "3-7-77." Today, Montana Highway Patrol Officers wear a "3-7-77" patch on their uniforms, and historians continue to debate the meaning of the mysterious numbers.

FAMOUS MONTANA FOLKS

A few famous people with Montana roots include daredevil Evel Knievel, actor Gary Cooper, author Norman MacLean, director David Lynch and Pearl Jam bassist Jeff Ament.

SIZE AND POPULATION

Montana is a vast and varied state of mountains, canyons, river valleys, forests, grassy plains, badlands and caverns. Its Big Sky covers a land area of more than 147,000 square miles, making Montana the fourth-largest state in the nation. In area, it can accommodate Virginia, Maryland, Delaware, Pennsylvania and New York, and still have room for the District of Columbia. Yet Montana's population is just 917,621 (2003 estimate), making it the sixth least-populated state. There are fewer people living in the entire state of Montana than in the city of Phoenix, AZ. In Montana, there is room to breathe. And nowhere is the air fresher.

CLIMATE

Generally, Montana's weather is milder than many visitors might expect. After hearing about record low temperatures from some of our more notorious recording stations, like West Yellowstone and Cut Bank, some nonresidents think of Montana as an icebox. Unlike many areas of the nation, however, where winter settles in for keeps, Montana's cold spells are frequently interrupted by chinook winds and mild periods. The beauty of Montana's weather system is that whether it is hot or cold, Montana is dry and, therefore, neither oppressively hot nor oppressively cold. Average annual precipitation is 15 inches, varying from 9.69 to more than 100 inches. Average daytime temperatures vary from 28 degrees in January to 84.5 degrees in July.

FILMS IN MONTANA

It's probably no wonder that a state so loved by artists, musicians and other creative folks has found its way to the Big Screen so many times. A sampling of some of the movies filmed in Big Sky Country:

TOWNS & ATTRACTIONS

Glacier National Park (A-2), (888-7800)
"Crown of the Continent," " World Heritage Site," "International Peace Park," "Biosphere Reserve." Glacier National Park answers to many names, but the grizzlies and brown bears, mountain goats, Rocky Mountain sheep, wolves, mountain lions, moose and elk, along with hundreds of other species living there, just call it home.

Glacier became a national park in 1910, and today it's still a throwback to the time when Mother Nature was in charge. Its more than one million acres are filled with wildlife, dense forests, jagged peaks and alpine glaciers. And it's home to one of the most stunning drives in America: the appropriately named **Going-to-the-Sun Road** (888-7800), which climbs the Continental Divide to **Logan Pass Visitor Center** (888-7800). Seasonal.

With more than 700 miles of trails, Glacier is a hiker's haven. Five self-guided interpretive walks with brochures and signs let visitors experience Glacier's outdoor wonders at their own pace—the Trail of the Cedars, Huckleberry Mountain, Hidden Lake, Sun Point and Swiftcurrent Nature Trail. The Trail of the Cedars is a wheelchair-accessible path through giant, old-growth cedars.

Visitors can find scores of day hikes throughout the park, but four areas in particular are popular: Lake McDonald, Many Glacier, St. Mary/Logan Pass and Two Medicine. Hikers can also camp overnight in Glacier's backcountry with a permit from a visitor center or ranger station. Permits are issued on a "first-come, first-served" basis no more than 24 hours in advance. Other popular activities in Glacier include horseback riding, scenic boat tours, snowshoeing and cross-country skiing.

Together with Waterton Lakes National Park in Canada (its neighbor to the north, with which it shares a border), Glacier National Park became the world's first International Peace Park in 1932. In 1995, both parks were additionally designated as a "World Heritage Site," joining other worldwide attractions such as the Taj Mahal, Australia's Great Barrier Reef and the Egyptian pyramids. This honor was bestowed by the World Heritage Convention, an international organization of 147 nations that recognize sites of "outstanding universal value" to all people of the world. Waterton-Glacier was selected because of its "incredible biological diversity and majestic natural beauty." No wonder recent visitors have declared it "the national park they would most like to return to."

FIND YOURSELF IN GOLD WEST COUNTRY

goldwest.visitmt.com

Feeding the beautiful mountain valleys of southwestern Montana are the rivers and lakes that spoil anglers for fishing anywhere else. Gold West Country also boasts a colorful history that is preserved in ghost towns, mining camps and museums, plus two nationally famous historical sites—the Big Hole Battlefield and Grant-Kohrs Ranch. Order a free Gold West Country guide filled with regional attractions and scenery by calling 800-879-1159 or go to www.goldwest.visitmt.com.

GHOST TOWNS

Find a kindred spirit at one of Gold West Country's 14 ghost towns, remnants of the area's mining past. Among them:

- **Virginia City and Nevada City**: Montana's most famous ghost towns. Highlights include an operating short-line railroad and "Brewery Follies" vaudeville.
- **Bannack**: Home of infamous outlaw Henry Plummer, it was Montana's first territorial capital.
- **Garnet**: Originally a gold-mining town, Garnet today offers a unique winter opportunity: snowmobilers and cross-country skiers can rent overnight cabins.

TOWNS & ATTRACTIONS

Big Hole National Battlefield (F-3), (689-3155). Site of the tragic engagement between the non-treaty bands of the Nez Perce and the 7th U.S. Infantry led by Col. John Gibbon on August 9 and 10, 1877. The National Park Service interprets and maintains the battlefield, open year-round. Two self-guided trails, visitor center, museum, daily ranger programs (summer months). Fee in summer. Self-guided snowshoe and cross-country ski trails open in winter. Web: www.nps.gov/biho

Bannack State Park (G-3), (834-3413). Site of Montana's first major gold strike in 1862, Bannack was also Montana's first territorial capital. A moment frozen in time, this carefully preserved ghost town includes Sheriff Henry Plummer's gallows, the Hotel Meade, Montana's first jail and the Methodist Church, where early-day circuit rider "Brother Van" preached. Visitor center, camping, fishing. Off MT 278, west of Dillon. Open year-round. Fee. Web: www.bannack.org

Garnet Ghost Town (D-3), (329-3914). Named for the ruby-colored stones nearby, this ghost town offers a glimpse of a turn-of-the-century gold camp. Located between I-90 and MT 200, it's best reached from the north, off MT 200, or from I-90, west of Drummond. Winter access (Dec. 1-May 15) by snowmobiling or skiing only. Winter cabin rentals. Fee. Web: www.garnetghosttown.org

Lewis and Clark Caverns State Park (F-5), (287-3541). Montana's first and best-known park features the most highly decorated limestone caverns in the Northwest. Daily cave tours (May 1-Sept. 30), ranger talks. Campground with camping cabins, picnic area, hiking trails, concessions, visitor center, group-use area. Located between Cardwell and Three Forks on MT 2. Fee. Web: www.fwp.mt.gov/parks

Pintler Scenic Highway (E-3). A wonderful alternative to Interstate 90 when traveling between Butte and Missoula, this 63-mile drive via MT Hwy 1 goes from Anaconda to Georgetown Lake, Philipsburg and Drummond. Following the Flint Creek, special attractions include Granite Ghost Town State Park, gem mining, fishing, skiing, camping, hiking, boating, biking and wildlife viewing.

Red Rock Lakes National Wildlife Refuge (H-4), (276-3536) One of North America's most important nesting areas for trumpeter swans, this remote refuge is located on Red Rock Pass Road (unpaved) between West Yellowstone and Monida. Also home to waterfowl, songbirds, raptors, moose and antelope. Primitive area. Web: www.r6.fws.gov/redrocks

Alder (G-4), (843-5555 or 800-829-2969)

Once a shipping point for Virginia City ore, this town is home to Robber's Roost. Hold-up gangs used to hang out here when stagecoaches made regular runs between Bannack and Virginia City. Nearby **Alder Gulch** is the site of the largest placer gold strike in world history. Alder Gulch produced 100 million dollars worth of gold by 1920.

Anaconda (F-3), (563-2400)

This town sprang up when the giant Anaconda Copper Mining Company of Butte needed a smelter for its copper ore. "Copper King" Marcus Daly chose the present-day site of Anaconda in 1882 because of the ample supply of water and limestone. Smelting operations were suspended in 1980, but "The Stack" remains an important landmark and state park,

GOLD WEST COUNTRY

Anaconda Smelter Stack State Park (542-5500). Self-guided walking and vintage bus tours (563-2400) of historic Anaconda begin at the **Anaconda Visitor Center**, 306 E. Park. **The Copper Village Museum and Arts Center** (563-2422) features area history and a copper smelter display. The Hearst Free Library is a 1889 period building donated to the city by George and Phoebe Hearst. The 1.6-mile Upper Works Historic Trail affords an overview of Anaconda and the **Old Works** smelter site, now a Jack Nicklaus signature golf course (563-5989). **Washoe Theater** (563-6161), an extravagant movie palace built in 1936 with Art Deco furnishings, murals and ornamentation, is an Anaconda treasure. Visitors can board the **Copper King Express** (563-7121) excursion train for historic, scenic vistas between Anaconda and Butte. **Mount Haggin** (542-5500), Montana's largest wildlife management area, offers 54,000 acres with moose, elk, cranes and many other species. Cross-country skiing in the winter months. Web: www.anacondamt.org

Anaconda Pintler Wilderness (F-2, 3), (821-3201). This 159,000-acre wilderness extends more than 30 miles along the Continental Divide southwest of Anaconda. Access points are Georgetown Lake, Moose Lake and the East Fork of the Bitterroot River, off US 93, on the west side of the wilderness. No motorized travel. Web: www.fs.fed.us/r1/bitterroot

Lost Creek State Park, (542-5500). Scenic recreation area north of town, off Hwy 273; handicapped accessible. Short trail to Lost Creek Falls offers views of limestone cliffs, mountain goats and bighorn sheep. Camping, picnicking. Seasonal. Web: www.fwp.mt.gov/parks

Augusta (C-4)

Augusta is a classic western town and carries the distinction of being a gateway to the immense **Bob Marshall Wilderness Complex** (758-5200), covering more than 1.5 million acres. From town there is easy access to hiking, floating, mountain biking, fishing and wildlife watching. Augusta plays host to the "Wildest One Day Show on Earth," the annual **American Legion Rodeo and Parade** (562-3477), held in late June.

Basin (E-4)

Basin became a trade center when prospectors found gold in 1862. Throughout the years, Basin's smelter opened and closed due to high smelting charges and low silver prices. The town has fluctuated in size, holding nearly 8,000 people during boom times, and as few as 220 today. The area is well known for its radon mines, which are now marketed for their reputed health-giving benefits. Over the past few years, Basin has attracted artists and musicians, giving this tiny town a lively, eclectic feel.

Boulder (E-4)

Boulder was named for the massive rocks scattered around the valley. Established in the 1860s, it became a center for mining and agriculture. By 1892, schools for the deaf, blind and feeble-minded were established, existing today as the Boulder Development Center. The Jefferson County Courthouse is on the National Register of Historic Places; built in 1889, it has a three-story entry and gargoyles perched on 24-inch-thick stone walls. **Elkhorn State Park** (495-3260), 15 miles south, showcases Fraternity Hall and Gillian Hall within the privately owned town of Elkhorn.

Butte (F-4), (723-3177 or 800-735-6814)

Once known as "the richest hill on earth," Butte is steeped in mining history. Copper, gold and silver were all found here, and Butte became a melting pot of ethnic diversity as immigrants flocked to the mines. Butte's colorful history can be seen in its ethnic neighborhoods, preserved Victorian uptown business district and stately mansions. Web: www.butteinfo.org

Butte's **Mineral Museum** (496-4414) displays 1,500 specimens, including a 27.5-oz. gold nugget. Free. Walking tour brochures and information at the **Butte Chamber of Commerce** (723-3177), 1000 George St. (Exit 126 off I-90). This is also the place to catch a tour of Butte on a replica of an early-day streetcar, "Old No. 1." June 1-Sept. 30. Fee.

Arts Chateau, (723-7600). Changing exhibitions of art in the elegant 1898 Victorian mansion of C.W. Clark, son of Copper King William A. Clark. 321 W. Broadway. April-Oct. Fee. Web: www.artschateau.org

Berkeley Pit, (723-3177 or 800-735-6814), started in 1955, was the largest truck-operated open-pit copper mining operation in the world until mining ceased in 1983. By 1980, nearly 1.5 billion tons of material had been removed from the Pit, including more than 290 million tons of

copper ore. Present-day visitors can view the mine from a platform located above it. Viewing stand open March-Oct. Fee.

Copper King Mansion, (782-7580). The three-story, 34-room mansion of Copper King/politician William A. Clark is preserved as it was in the 1880s, with stained-glass windows, frescoed ceilings, hand-carved woodwork and lavish antique furnishings. Listed on the National Historic Register, the mansion is a museum and a bed and breakfast. 219 W. Granite. Fee. Web: www.thecopperkingmansion.com

Granite Mountain Mine Memorial, (723-3177 or 800-735-6814). A mine disaster in 1917 killed 168 men, who are honored here. Offers a panoramic view of Butte and the surrounding area. Turn right at the St. Lawrence Church, 1308 N. Main, and follow the signs. Free.

Historic Chinese Building, The Mai Wah, (723-3177). Located in what was Chinatown, between Galena and Mercury streets. Once a mercantile and noodle parlor, it now houses exhibits to interpret Butte's Asian history. Open Memorial Day-Labor Day, Tues.-Sun. Fee. Web: www.maiwah.org

Our Lady of the Rockies, (782-1221 or 800-800-LADY). A 90-foot statue placed on the East Ridge overlooking Butte, it looks over Montana peaks and valleys as far as 100 miles away. Our Lady, built entirely by volunteers and maintained by a nonprofit organization, was begun in 1979 and completed in 1985. Tours June-Sept. Fee. Gift shop in the Butte Plaza Mall. Web: www.ourladyoftherockies.org

World Museum of Mining and Hell Roarin' Gulch, (723-7211). This 1899 mining camp covers 12 acres and includes three dozen structures located at the base of a real mine headframe on W. Park St. near Montana Tech campus. Built entirely with volunteer labor, it features a wealth of mining displays, a 1,600-piece mineral collection and an ore train ride. April-Oct. Fee. Web: www.miningmuseum.org

Deer Lodge (E-4), (846-2094)

In the 1850s, Johnny Grant established what became one of the largest ranching operations in the country. Deer Lodge was later selected as the site for the Montana Territorial Prison, opened in 1871. The Northern Pacific Railroad arrived in 1883 and Deer Lodge was the end of the line for immigrants heading west. Today, Deer Lodge has a plentiful supply of unusual historic attractions from the prison museums to the only U.S. National Historic Site that is also a working cattle ranch. Recreational opportunities abound in the nearby Beaverhead-Deerlodge National Forest. Web: www.powellcountymontana.com

Frontier Montana Museum, (846-0026 or 846-3111). An impressive collection of cowboy collectibles, including spurs, chaps and guns. The museum houses Desert John's Saloon, with a bar that dates back to the 1800s, and hundreds of antique liquor bottles. Located in the Old Montana Prison Complex. Seasonal. Fee. Web: www.pcmaf.org

Grant-Kohrs Ranch National Historic Site, (846-2070), operated by the National Park Service, this 1,500-acre working cattle ranch still has more than 80 standing structures carefully preserved with the original Victorian furnishings. There's also a tack room, icehouse, barns, blacksmith shop, wagon collection and animals. The elegant ranch house can be seen on a guided tour. Demonstrations of ranching activities take place throughout the year as well as at the annual **Western Heritage Days** (846-2070, ext 224) celebration in July.
Web: www.nps.gov/grko

Montana Auto Museum, (846-3111) has the second most complete Ford collection in the world. Here a visitor can trace the development of the automobile from 1903 to the 1960s. Dillon (G-4), (683-5511)

This farm and ranch community claims the perfect mix of culture, history and recreation. At one time the largest wool shipping point in Montana, the area was central to early Montana mining camps and settlements. Bannack, Montana's first territorial capital and now a well-preserved ghost town, is nearby. The Montana Normal College was established in

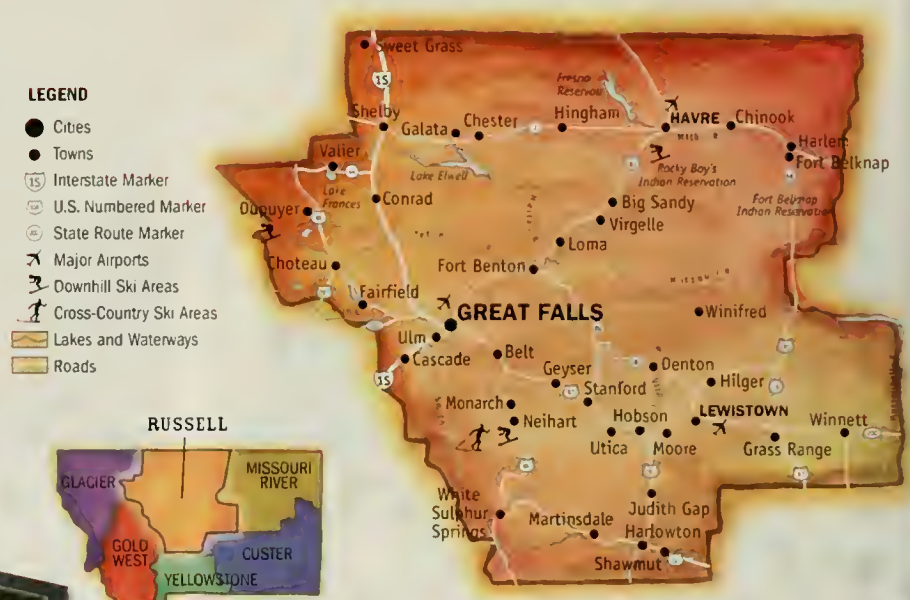
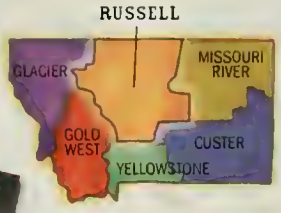
HANDS OF HARVEST

Hands of Harvest, a cultural cooperative in north-central Montana, offers a unique inside perspective on the region's arts and crafts. How? The area's artists and artisans have banded together to create six unique cultural loop tours—tours that give you a true insider's look at the daily lives and inner workings of the region's cultural fabric. That means you might drive up to the home of local artists and get a peek inside their studios. Or stay at a local bed and breakfast to learn the area's local history. Or learn about farming and ranching from people who do it every day.

The key is: you'll be treated to this by the local people who hand-make the crafts and arts, or who live in and interpret the area. So you'll make a real connection that isn't usually possible. To find out more about the six established loop tours, contact Hands of Harvest at www.handsofharvest.org or 454-6980.





North-central Montana is a region of vivid landscapes and contrasts, where the mountains meet the plains. This is the real West that famed cowboy artist Charlie Russell loved to paint. This is also the land of Lewis and Clark, who explored much of the region traveling up the Missouri River. Russell Country offers the best of the West—floating, camping, hiking, hunting, skiing and snowmobiling. Order a free Russell Country guide filled with regional attractions and scenery by calling 800-527-5348 or go to www.russell.visitmt.com.

TOWNS & ATTRACTIONS

Lewis & Clark National Forest (D, E-5, 6, 7), (791-7700)
Dramatic mountains and rolling plains are what comprise this sprawling forest. The vastly different terrain offers a variety of recreation opportunities including hiking, skiing, snowmobiling, hunting and camping. Contact the forest supervisor's office in **Great Falls** (791-7700) for maps and brochures on all types of recreation on Forest Service lands in central Montana.

Old Forts Trail (B-7 - C-6), (622-3864 or 265-4383)
This supply wagon trail marks the sites of early settlements of traders who transported goods from Fort Benton to Canada. The trail begins in Fort Benton, just off US 87. Today's travelers can view a re-constructed fur post in Fort Benton, once a hub for trade and travel along the Missouri River. Farther northeast along US 87 is Fort Assinniboine, at one time one of Montana's largest frontier military posts. Remnants of the post remain, and guided tours are available by appointment. The trail continues to the province of Saskatchewan in Canada.

Old North Trail (B-4 - C-4), (466-5332)
One of the oldest trails known to mankind, the Blackfeet Indians followed it along the east side of the Rockies from their northern hunting grounds to their southern winter encampments. Approximately 25,000 years ago it extended across the ice bridge from Siberia southward into Mexico. There are 23 granite trail markers near Choteau, Bynum and Dupuyer west of US 89. Information about the Old North Trail is available at the Old Trail Museum in Choteau.

Upper Missouri River Breaks National Monument (C-6, 7),
(622-4000 or 538-1900)
The Upper Missouri River Breaks National Monument covers 375,000 acres of public land that hold a spectacular array of plant life, wildlife, unique geological features, endless recreational opportunities and historical and cultural values. A must-see of the area is the **Upper Missouri National Wild and Scenic River** (622-4000), stretching 149 miles downriver from Fort Benton. In 1805-06, Lewis and Clark explored this river and camped on its banks. Highlights include the scenic White Cliffs area, Citadel Rock, Hole in the Wall, Lewis and Clark Camp at the Slaughter River on the upper river segment plus abandoned homesteads, abundant wildlife and the "Breaks" landscape on the lower portion of the river. Commercial boat tours, shuttle service and rentals at Fort Benton and Virgelle are available. Please call the Fort Benton River Management Station at 622-4000 for trip planning assistance and information. Another area of interest in the national monument is the **Missouri Breaks National Back Country Byway** (538-1900), an 81-mile loop road east of Winifred. Highlights include the Lewis & Clark and Nez Perce national historic trails, C. M. Russell National Wildlife Refuge and a side trip to the free McClelland Ferry across the Missouri River that runs April-Oct. The Back Country Byway is open year-round, weather permitting, and a high-

Also in the area is the blockhouse at Fort Logan, a frontier military site northwest of town. White Sulphur Springs sits in the heart of excellent hunting country, and is also an anchor community for the **Kings Hill Scenic Byway** (547-2250), a 71-mile picturesque drive.

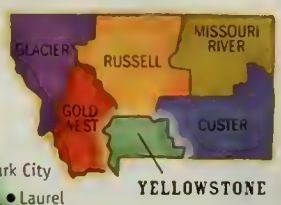
ON THE FLY

Yellowstone Country is your gateway to not only the steaming geysers of Yellowstone National Park, but your access to water recreation. The Gallatin, Madison, Yellowstone and Missouri rivers, all provide access to blue-ribbon, world-class fishing, with over 1,100 miles in all. If catching a few waves is more your style, you can conquer the feistiest rapids in a raft or kayak or take a leisurely float down the mildest streams. At the end of the day, take a relaxing soak in hot springs and reflect on the day's adventure. Either way, come on in, the water's fine.



The world's first national park and the nation's longest free-flowing river give south-central Montana its name. Wildlife, water and wilderness give it its majesty. Three of Yellowstone National Park's five entrances, including the scenic Beartooth Highway, are located in Yellowstone Country. For non-motorized travelers, the Absaroka-Beartooth Wilderness is as good as it gets. Order a free Yellowstone Country guide filled with regional attractions and scenery by calling 800-736-5276 or go to www.yellowstone.visitmt.com.

TOWNS & ATTRACTIONS

Yellowstone National Park (H-6), (307-344-7381)
It was the world's first national park. And in the minds of many, it is still first for its scenery, beauty and wildlife. Yellowstone's geothermal features, such as the world-famous "Old Faithful," were the original attractions. Within the park's boundaries are 10,000 thermal features and about 200 to 250 active geysers. That's enough to give Yellowstone more geysers and hot springs than the rest of the world combined. Other major draws are the inspiring Grand Canyon of the Yellowstone River (featuring the 308-foot-high Lower Falls), fossil forests and Yellowstone Lake (136 square miles). Web: www.nps.gov/yell

Ninety-nine percent of the park's 2.2 million acres are still undeveloped, allowing Yellowstone to support a wide range of wildlife, including 58 mammal species (such as the ever-present buffalo and elk), 290 bird species and 18 fish species. In fact, Yellowstone is home to the largest concentration of free-roaming wildlife in the lower 48 states and the global temperate zone.

About 80 percent of the park is forested, thanks to eight species of conifers and 1,050 species of native plants. Some of the most popular activities in the park include backpacking, bicycling, boating, cross-country skiing, snowmobiling, fishing (permit required), horseback riding and, of course, wildlife viewing. Montana has three of Yellowstone's five entrances: the North Entrance at Gardiner, the Northeast Entrance at Cooke City and the West Entrance at West Yellowstone.

Yellowstone Association Institute (H-6), (307-344-2294). The Yellowstone Association Institute is a non-profit field school operated in partnership with the National Park Service. Operating year-round, the institute offers in-depth field seminars and learning vacations inside Yellowstone National Park. Web: www.yellowstoneassociation.org

Beartooth Scenic Byway (G-7), (446-1718). Designated a National Forest Scenic Byway, the Beartooth Highway has been described by the late CBS correspondent Charles Kuralt as "the most beautiful road in America." Reaching heights of nearly 11,000 feet, this 53.7-mile, three-hour drive offers skytop views of snowcapped peaks, glaciers, alpine lakes and plateaus. Seasonal.

YELLOWSTONE COUNTRY

Absaroka-Beartooth Wilderness (G-6), (522-2520). Adjoining Yellowstone Park on its northern edge, the Absaroka-Beartooth Wilderness adds nearly one million acres to the Greater Yellowstone Ecosystem. Within its borders are numerous peaks over 12,000 feet, including Montana's highest, Granite Peak, at 12,799 feet. More than 640 alpine lakes and hundreds of miles of hiking trails make this a prime backcountry destination for hikers, anglers and horseback riders. Major access points are from Billings, Big Timber, Livingston, Red Lodge and Cooke City. No motorized travel. Web: www.fs.fed.us/r1/gallatin

Absarokee (G-7)

This scenic, small community is a gateway to fishing, hiking, camping and outdoor exploration along the Stillwater and Yellowstone rivers and the nearby Absaroka-Beartooth Wilderness.

Big Sky (G-5), (995-3000 or 800-943-4111)

The scenic community of Big Sky nestles high in mountain meadows, surrounded by timberland, the Spanish Peaks Primitive Area and the Gallatin National Forest. Majestic 11,166-foot Lone Mountain towers over this paradise, where in 1969, Chet Huntley, the late newscaster, and a group of corporate investors purchased some ranchland, which would later be developed into **Big Sky Resort** (995-5000 or 800-548-4486). In 2003, **Moonlight Basin** (993-6000 or 877-822-0430), sharing the same mountain, became the first new destination ski resort in the US in 20 years. Activities and/or guided services for the Big Sky area include ranch vacations and activities, hiking, whitewater trips, hunting, fishing, horseback riding, golf, cross-country and downhill skiing and snowmobiling. Hiking is popular in the nearby **Lee Metcalf (Spanish Peaks Unit) Wilderness** (522-2520). For an exquisite view of Lone Mountain, stop by Soldier's Chapel, built in 1955 as a World War II memorial. Located at the foot of the Crazy Mountains, this agricultural community offers a broad range of activities, including ranch vacations and activities, hiking, river floats, hunting, fishing, golf, rodeo and Montana's biggest horse-cutting competition. Visit the **Crazy Mountain Museum** (932-5126) for exhibits reflecting the history of Sweet Grass County and the lovely Lewis and Clark Native Plant Garden. Visitors may catch a glimpse of them at the **Pryor Mountain National Wild Horse Range** (896-5000), north of the overlook. This rugged, desert-like country offers hiking, birding and backcountry driving.

Columbus (G-7), (322-4505)

YELLOWSTONE COUNTRY

Cooke City, Silver Gate (H-6), (838-2495)

Established in the early 1880s, the town still has a rustic Old West atmosphere, which can be traced to its mining roots. Today, surrounded by the Gallatin and Shoshone national forests, **Absaroka-Beartooth Wilderness** (522-2520) and **Yellowstone National Park** (307-344-7381), the area is an outdoor recreationist's dream. These skytop villages offer hiking, fishing, horseback riding, pack trips, mountain climbing, snowmobiling and more. Pink snow found only in a few places in the world and glaciers containing preserved grasshoppers are within hiking distance of the towns. Cooke City and Silver Gate are accessible year-round from Yellowstone's North Entrance at Gardiner and during the summer from the **Beartooth Highway** (446-1718). Web: www.cookecitychamber.org

Gardiner (G-6), (848-7971)

Gardiner is the only year-round, drive-in entrance to Yellowstone National Park, making it a bustling town in any season. Roosevelt Arch has marked the North Entrance to Yellowstone since 1903, when President Theodore Roosevelt dedicated it before an estimated 5,000 spectators. The Yellowstone River cuts through town and offers anglers and rafters unique experiences. Jardine, a nearby gold mining town, offers a bit of area history. Web: www.gardinerchamber.com

SCENIC DRIVES

Beartooth All American Road

Designated a National Scenic Byway, US 212 between Red Lodge and Cooke City has been called the "most beautiful drive in America" by former CBS correspondent Charles Kuralt. The highway was orginally completed in 1936; at the beginning of the 2005 season, massive slides destroyed much of it, and an amazing reconstruction effort has re-opened the road for the 2006 travel season. This 53-mile drive reaches heights of nearly 11,000 feet as it crosses the backbone of the Beartooth Mountains , then continues on to Yellowstone National Park's Northeast Entrance. Find out more from the Red Lodge Chamber at 446-1718 or www.redlodgechamber.com.

Quake Lake Tour

On August 17, 1959, the largest earthquake to ever hit Montana (7.5 on the Richter scale), rocked the Madison Canyon near West Yellowstone. Massive landslides devastated the canyon, causing flooding and collapsing roadways. The mud from the landslides essentially dammed the Madison River, creating what's today known as "Quake Lake," a 190-foot-deep, six-mile-long lake. You can take a tour along US 287, viewing numerous discovery points such as the quake's epicenter. To find the highway, go north of West Yellowstone and turn west on US 287. Find out more at the West Yellowstone Chamber: 646-7701 or westyellowstonechamber.com

YELLOWSTONE NATIONAL PARK

"I was my son's age
the last time I visited Yellowstone.
Today I'm standing at Old Faithful again,
my seven-year-old squeezing my hand.
Both of us staring in wide-eyed
wonder as it leaps impossibly
high into the air, painting clouds
in the clear blue Western sky. After
all these years, I realize it still
has the power to make me feel
like a little kid again."

THE BIOGRAPHY OF LONE PEAK

Took a hundred million years to grow 11,166 feet. But had a major growth spurt over summer.

Montana's favorite son has always been a pretty big boy. And now with the new Big Sky-Moonlight Basin interconnect, he's bulked up to 5,300 acres. Add in 400 inches of annual snowfall, the Lone Peak Tram to the top and a lack of lift lines, and suddenly Big Sky is the envy of the class. Not only do we have world-class skiing in the winter, but our summers are filled with activities like golfing, rafting, fly-fishing and horseback riding. And we're only 18 miles from Yellowstone Park.

Big Sky, Montana. A place all your own.

Everything about Missouri River Country is big, starting with the sky. Vast reaches of plains, badlands and prairie wilderness, abundant waterfowl and wildlife, Fort Peck Dam—the largest hydraulic fill dam in the world—and a giant lake surrounded by 1,500 miles of shoreline set a stage of dramatic proportions. People are few in Montana's northeast corner, but smiles are abundant. Order a free Missouri River Country guide filled with regional attractions and scenery by calling 800-653-1319 or go to www.missouririver.visitmt.com.

DINOSAUR TRAIL

Montana's Missouri River Country is a mecca for dinosaur hunters—thanks to its fossil-rich formations and its unique dinosaur attractions. See museums with Montana dinosaur discoveries and visit field stations (fossil preparation labs). Highlights of the Montana Dinosaur Trail (mtdinotrail.org) in this region include:

- **Fort Peck:** Fort Peck Paleontology, Inc. and Fort Peck Interpretive Center and Museum
- **Jordan:** Garfield County Museum
- **Malta:** Phillips County Museum and Dinosaur Field Station.

TOWNS & ATTRACTIONS

Charles M. Russell and the UL Bend National Wildlife Refuges (C-8, 9, 10), (538-8706)
These wildlife-rich refuges consist of prairies, pines, breaks and badlands, and encompass a million acres of wildlands surrounding Fort Peck Reservoir. Together, the refuges boast the only place in Montana where elk still occupy their native prairie year-round. Recreational opportunities include boating, fishing, camping and hunting. Excellent viewing opportunities exist for elk, deer, antelope, bighorn sheep, raptors and waterfowl. A two-hour, 20-mile auto tour of the C.M. Russell Refuge begins and ends on US 191 north of the river and, in season, may offer views of the elk herd. Consult weather conditions before traveling to the refuges, as roads may be impassable.

Fort Peck Interpretive Center and Museum, (C-10), (526-3493)
Part of the Montana Dinosaur Trail, this state-of-the-art facility's signature attraction is "Peck's Rex," one of the most complete *Tyrannosaurus rex* skeletons ever found. The main lobby features a life-sized replica of Peck's Rex; the museum's exhibit hall also displays a full-sized cast skeleton of the actual Peck's Rex, along with exhibits devoted to other dinosaurs. Open year-round, seasonal hours. Free. Located 1.5 miles east of Fort Peck on Lower Yellowstone Rd. Web: www.pecksrex.com

Fort Union Trading Post National Historic Site (B-12),
(701-572-9083) The Missouri River's preeminent fur trading post from the 1820s to the Civil War, Fort Union was a colorful mix of river boaters, fur traders, Plains Indian tribes and frontier capitalists. The Bourgeois House, once the setting of elegant dinners for distinguished guests, is now a visitor center. Fort Union straddles the Montana-North Dakota border 24 miles northeast of Sidney. Open daily. Free. Web: www.nps.gov/fous

Medicine Lake National Wildlife Refuge, (B-12), (789-2305).
This important refuge is home to the largest white pelican colony in Montana with more than 10,000 nesting birds, and supports spring and fall migrations that bring thousands of waterfowl. Other seasonal visitors include sandhill cranes, great blue herons, grebes and 12 different species of ducks. The refuge encompasses a small prairie wilderness and an 8,000-acre lake. Open year-round for walking tours and photography, seasonal self-guided auto tour. Web: medicinelake.fws.gov

Bainville (B-12)
Located on Main Street is the **Pioneer Pride Museum**, featuring rooms furnished as they were in the days of the pioneers, an old jail and a 1929 fire truck. Open Memorial Day-Labor Day.

Circle (C-11), (485-2414)
Located in the heart of the prairie, Circle's **McCone County Museum** (485-2414) interprets the development of this vast country and features Indian artifacts, fossils and a large taxidermy room. Open May 1-Oct. 1. Fee.

Culbertson (B-12), (787-6320)
Culbertson greets travelers at the Culbertson Museum and Visitor Information Center (787-6320). Museum features historical rooms as well as a wagon bar, blacksmith shop, GN caboose and dozens of antique tractors. Open May-Sept. Web: www.culbertsonmt.com

Fairview (C-12), (742-5259)
Located at the confluence of the Yellowstone and Missouri rivers. Fairview is known as "the sugar beet capital of Montana." Just north of Fairview is Fort Union, one of the nation's premier frontier trading posts. Visitors also find Fort Buford, a military fort and the historic Snowden and Fairview bridges, the last two dual transportation (autos/trains) lift bridges left in the country. MISSOURI RIVER COUNTRY

Fort Peck (C-10)

Best know as the home of Fort Peck Dam, this small town offers big recreation and entertainment opportunities. A scenic overlook just east of the dam on Hwy 24 offers views of Fort Peck Lake and interpretation of Lewis and Clark's journey through northeast Montana. **Fort Peck Summer Theatre** (228-9216) offers musicals and dramas. **The Powerhouse Museum** (526-3431) has an impressive display of fossils. Watch paleontologists prepare, mold and cast fossil finds at the **Fort Peck Paleontology, Inc. and Dinosaur Field Station** (526-3539). Part of the Montana Dinosaur Trail.

Fort Peck Dam and Reservoir (C-10), (526-3411). More than 50 different kinds of fish swim in Fort Peck Reservoir, Montana's largest body of water. Six recreation areas within a few miles of the dam provide access for water sports, fishing and hunting. The Beaver Creek Nature Trail starts at the campground downstream from the dam and leads through wildlife habitat. A wildlife viewing auto route, the Leo B. Coleman Wildlife Exhibit, begins near the Fort Peck Theatre. The reservoir was created between 1933 and 1937 with the construction of a 3.8-mile-long dam across the Missouri River. The **Fort Peck Power Plant Museum** is located in the lobby of Power Plant #1 on Lower Yellowstone Rd., 2 miles northeast of Fort Peck. The museum displays history of the dam's construction and fossils including a *Triceratops* skull. Museum open year-round. Free guided tours Memorial Day-Labor Day. Web: www.fortpeckdam.com

Glasgow (B-10), (228-2222)

Besides unlimited recreation at nearby Fort Peck Lake and the **Charles M. Russell National Wildlife Refuge** (538-8706), Glasgow is rich in Hi-Line history. Visit the **Valley County Pioneer Museum** (228-8692) for its fossils and Indian artifacts, plus railroad, early business, aviation and wildlife collections. Seasonal. Located on US 2, west through Glasgow. Web: www.glasgowmt.net

Jordan (D-10), (557-6158)

Located near the **Charles M. Russell Wildlife Refuge** (538-8706), Jordan offers plenty of outdoor recreation and watchable wildlife. **Hell Creek State Park** (234-0900) provides access to Fort Peck Lake and excellent water sports opportunities. Visitors can glimpse area history and fossil exhibits including a full *Tyrannosaurus rex* head at the **Garfield County Museum,** part of the Montana Dinosaur Trail (557-2308). Seasonal. Area dinosaur digs available.

Malta (B-8), (654-1776)

Home of ranchers, abundant wildlife and unlimited outdoor recreation, Malta is a friendly stop along US 2, known in Montana as the Hi-Line. Visit the **Bowdoin National Wildlife Refuge** (654-2863) for opportunities to view more then 260 bird species, deer, antelope and upland game. **Nelson Reservoir** (456-3228) boasts excellent walleye and northern pike fishing, water sports and abundant waterfowl. For area history and dinosaur exhibits, visit the **Phillips County Museum** (654-1037) or the **Dinosaur Field Station** (654-5300), one of Montana's finest working paleo laboratories. Both are seasonal and part of the Montana Dinosaur Trail. Web: www.maltachamber.com

Plentywood (A-12), (765-1733)

Just south of a 24-hour Canadian border station, Plentywood is a major gateway to Montana. Located a mile east of Plentywood on Hwy 16 is the **Sheridan County Museum** (765-1733) with the state's longest interior mural depicting the history of the county. Seasonal. **Brush Lake State Park** (228-3700), Montana's newest state park, offers great sandy beaches and clear blue waters. Due to the unique chemical make-up of the water, there are no fish and very little aquatic vegetation in the lake. 31 miles southeast of Plentywood. Day use only. Web: www.plentywood.com

Poplar (B-11), (768-5204)

Located on the **Fort Peck Indian Reservation** (768-5155), Poplar offers plenty of Indian culture. The reservation is home to the Assiniboine and Sioux tribes. A prosperous industrial park in Poplar is one of the largest employers in Montana. A variety of enterprises, including metal fabrication and production sewing, are housed here. **The Fort Peck Assiniboine and Sioux Culture Center and Museum** (768-5155) features permanent exhibits of Assiniboine and Sioux heritage, arts and crafts. **Fort Peck Community College** (768-6300) offers associate's degrees in the arts and sciences. Web: www.poplarmt.com

Saco (B-9), (527-3218)

Chet Huntley, the late news commentator, began his education at **Huntley School**, now a restored one-room building.

Scobey (A-11), (487-2061)

Located in the heart of grain and cattle country, Scobey is the home of the **Daniels County Museum and Pioneer Town** (487-5965) featuring 35 buildings that have been developed or restored to depict turn-of-the-century businesses and homes. Sidney (C-12), (433-1916)

Situated on the banks of the Yellowstone River, Sidney is the center of trade for the area. Oil and agriculture are the prominent industries, and crops include grains, sugar beets, corn, beans and hay. Visitors enjoy the **MonDak Heritage Center Museum** (433-3500), named for the region where it is located (on the Montana/North Dakota border) and the only art gallery/museum within 128 miles. The gallery features all types of professionally produced art, ranging from contemporary to Western. A re-created 1890s homestead-era museum occupies the lower floor of the building. 120 3rd Ave. SE. BIRDING TRAIL

Grab your binoculars and get ready to explore the vast diversity of birds along Montana's Northeastern Plains Birding Trail. Experience the wonder of a chorus of grassland birds at dawn and wander through the wide-open prairie. Dive in and check out the unique birds of the marshes and reservoirs. Then head for the hills and discover the sights and sounds of Montana's badlands. And don't forget to take a stroll though the woodlands of the rivers and mountains to experience rich bird life. For a free brochure, contact Missouri River Country, 800-653-1319, or visit www.missouririver.visitmt.com.

Wolf Point (B-11), (653-2012)

Wolf Point's economy today is primarily agricultural with large wheat farms and cattle ranches dotting the plains landscape. Montana's oldest rodeo, the Wild Horse Stampede, is held every July. Visitors can make an appointment to see the **Louis Toavs' John Deere Tractor Collection** (392-5294) with over 500 tractors for viewing, or enjoy area history at the **Wolf Point Museum** (653-1912). Seasonal. The Montana Cowboy Hall of Fame is currently in development along US 2.

Zortman (C-8), (654-1776)

This historic mining town, nestled in the Little Rocky Mountains, offers a good base for camping, hiking, gold panning and trail rides. The Little Rockies, named by the Lewis & Clark Expedition in May 1805, are rich in history. Gold mining arrived in 1884. Kid Curry and the Wild Bunch homesteaded in the Little Rockies and left behind graves with stories to tell. Campgrounds available in both Zortman and Landusky, with traveler services in Zortman.

SCENIC DRIVES

Outlaw Trail

Fort Peck Lake Drive
Follow a portion of giant Fort Peck Lake, which has more shoreline itself than the entire state of California. Start at Fort Peck Dam, one of the world's largest dams, and head south on Hwy 24 to its junction with MT 200.

Bighorn Lake, created by 525-foot-high Yellowtail Dam, is located within the canyon's spectacular limestone walls. The lake is approximately 60 miles long and provides great walleye fishing. Below the dam, the Bighorn River is one of Montana's premier, year-round trout streams. Accommodations and services are available at Fort Smith and Hardin, and in Wyoming. **Yellowtail Visitor Center** (666-2412). Open daily June-Sept. Web: www.nps.gov/bica

Samuel Sturgis. **Riverside Park,** located south of the Yellowstone River Bridge, was the site of the German prisoner of war camp during World War II. The prisoners built the buildings located in the park. Web: www.laurelmontana.org

Miles City (E-11), (234-2890)

The cavalry set up camp at the mouth of the Tongue River on the Yellowstone after the 1876 campaign of "rounding up hostile Indians." Their commanding officer was Col. Nelson A. Miles, and this camp was the beginning of Miles City. It soon became a stopping place on the long cattle drives from Texas. As the cattle industry became more important, it was fitting that the Montana Stockgrowers Association was formed here in 1884. The coming of the Northern Pacific Railroad in 1881 shaped Miles City's destiny as a leading cattle market. Miles City is the home of a popular rodeo called the **Bucking Horse Sale,** (234-7700) held each year in May. **Pirogue Island State Park** (234-0900) is a great spot to view wildlife and hunt for agates (no facilities). Web: www.milescitymt.org

At one time the largest U.S. Army post in Montana, **Fort Keogh,** two miles southwest of town, served from 1877-1908 as a major post at the close of the Indian wars. Several original buildings remain and the old parade grounds are still intact. The **Range Riders Museum** (232-6146) chronicles the colorful history of the area. This impressive historical center on the west edge of town includes Fort Keogh Officers' Quarters, Pioneer Memorial Hall, Indian artifacts and the 400-piece Bert Clark Gun

Collection. Located in a historic waterworks plant, the **Custer County Art & Heritage Center** (234-0635) features the work of local, state and regional artists. **The Wool House Gallery** (232-0769), a 1909 wool warehouse once owned by the Milwaukee Railroad, features railroad artifacts and memorabilia, an art gallery, Huffman prints and steel sculptures.

Pompeys Pillar (F-8)

The town of Pompeys Pillar is best known for **Pompeys Pillar National Monument** (875-2233), one of the newest U.S. national monuments. It is where Captain Clark, on his way home with the Corps of Discovery, carved his name in a sandstone outcropping on the Yellowstone River and is the only remaining physical evidence on the trail.

Pryor (G-8)

Located on the **Crow Indian Reservation** (638-3700), Pryor takes its name from Sergeant Nathaniel Pryor, a member of the Lewis & Clark Expedition. One mile west of Pryor is **Chief Plenty Coups State Park** (252-1289) home and burial site of Chief Plenty Coups, last chief of the Crow tribe. His log home and store remain as evidence of his efforts to lead his people to adopt the lifestyle of the white man. A museum and exhibits interpret Crow culture.

Richey (C-11), (773-5634)

Richey lies in the center of cattle, sheep and farm country. The **Richey Historical Museum** (773-5823) features more than 5,000 articles of historical interest.

Roundup (E-8), (323-1966)

Due to its natural geographic design, Roundup, located on the Musselshell River near the Bull Mountains, was once a gathering point for large herds of cattle that grazed up and down the valley. **The Musselshell Valley Historical Museum** (323-1403) includes a pioneer-era cabin, five-room house, coal mine and 7,000-square-foot exhibit area. The Bull Mountains, south of Roundup, offer beautiful roadside geology and pine trees. Companies, adhering to careful reclamation processes, mine coal in these mountains. North of town are oil wells, evidence of another rich resource in the area. Web: www.roundupchamber.com

Terry (D-11)

Terry sits adjacent to the Yellowstone River in the heart of agate country. Visitors can discover Terry's history at the **Prairie County Museum**

(635-4040), housed in the old State Bank of Terry. It is filled with horse and buggy equipment and household and business antiques. The **Lady Cameron Gallery** features photos of eastern Montana as seen through the eyes of a pioneer British immigrant (1894-1928). Seasonal. The nearby **Terry badlands** (233-2800) provide a dramatic backdrop for recreational opportunities.

Wibaux (D-12), (796-2412)

Pierre Wibaux, from whom the community takes its name, was a cattleman who made his fortune in the winter of 1890 by buying cattle that stockmen were forced to sell at bargain prices. Wibaux's own cattle had been wiped out in the winter of 1886-1887; however, he received financial backing from French investors and rebuilt his herd to 75,000 head. Teddy Roosevelt, future U.S. president and friend of Wibaux, also was a badlands rancher during this time. Theodore Roosevelt National Park and the town of Medora, North Dakota, just 30 miles from Wibaux, stand today as reminders of the roles these gentlemen played in history. Wibaux is home to a state visitor center (796-2253), making it a natural "gateway to Montana." The **Wibaux County Museum Complex** (796-9969) includes farm and household items of early area settlers, the Centennial Car Museum and the Pierre Wibaux House. Another Wibaux landmark is **St. Peter's Catholic Church** with its stained-glass windows and lava rock exterior, built in 1885.

CUSTER COUNTRY

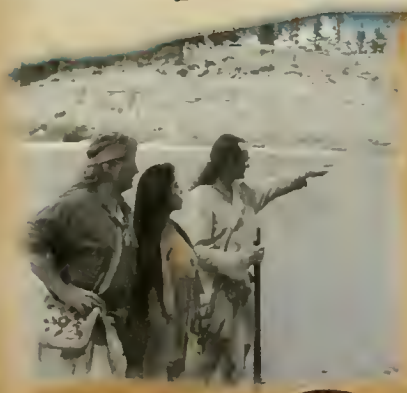
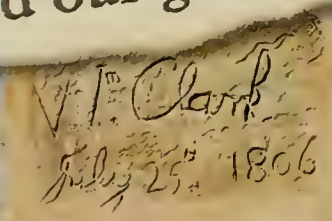
CLARK didn't just SLEEP here.
He signed our guest book.





Join us for the Lewis and Clark Bicentennial Signature Event at Pompey's Pillar July 22-25, 2006– marking the 200th anniversary of Clark's signature in the sandstone formation.

While you're here, don't forget our other memorable visitor: Colonel George Custer. 2006 is the 130th anniversary of his famous battle against Sitting Bull on June 25, 1876.

STATEWIDE

visitmt.com

At first glance, Montana appears to be a study in contrasts. The western portion of the state, on the western slopes of the Rocky Mountains is filled with coniferous forests, chains of lakes and numerous mountain ranges—vestiges of glacial activity that once carved the landscape. The eastern part of the state, however, gives way to rolling plains under the famed Big Sky, and even badlands formations of weathered rock.

On closer inspection, though, you'll find Montana is a place big enough, a place special enough, to embrace this dichotomy: the state is all this and more. Indeed, as you look across Montana, you'll see similar incongruities that somehow exist harmoniously. Outdoor recreationists, their feet strapped into river sandals, walk down the same streets as authentic cowboys wearing their mud-caked ropers. Ancient, battered pickups share the highway with modern SUVs. Working-class miners sit down to breakfast in the same diners as business executives.

Montana, in so many ways, celebrates diversity. The diversity of landscape is here: jagged peaks, golden-hued rolling hills, red rock badlands, thundering rivers, calming lakes and more. The diversity of wildlife is here: Montana is home to more mammal species (100+) than any other state. The diversity of towns is here: thriving modern cities and economic centers such as Billings and Missoula; mining towns with unique stories to tell such as Butte and Helena; recreational paradises such as Bozeman, Hamilton, Kalispell and Whitefish; and small towns where you can count the number of full-time residents on your fingers.

All of these things, and more, are parts of Montana. And in a wonderful, mysterious way, they all fit.

And perhaps that, more than anything else, is what sets Montana apart in the minds and hearts of so many. "I am in love," John Steinbeck wrote in his famous work *Travels With Charley*. "For other states I have admiration, respect, recognition, even some affection, but with Montana it is love."

MADE IN MONTANA

Montana is home to extremely creative individuals who, through a labor of love, create works of art, crafts and food products that reflect the true meaning of quality, pride and craftsmanship. Look for "Made in Montana" stickers and tags on a variety of Montana-made products, ranging from clothing and food products to hardware and electronic components that are shipped worldwide. Labels appear only on products that have a minimum of 50 percent value added in Montana. Take home some very unique gifts by looking for the "Made in Montana" label when shopping for souvenirs.

SAPPHIRES

Sapphires of both gem and industrial quality are mined in western and central Montana. The unusual cornflower-blue sapphires of Yogo Gulch near Lewistown are said to be the deepest blue of all sapphires in the world and are of highest gem quality. Named by the Indians, the word "yogo" means "blue sky." Yogo sapphires can be found in Montana's gem stores and rock shops. Try your luck at one of the many sapphire mines located throughout the state.

WILD BERRY PRODUCTS

During the summer and fall, wild chokecherries, buffalo berries, plums, Flathead cherries and huckleberries grow abundantly in Montana. Many Montanans collect these fruits and produce wonderful treats. Chocolate-covered huckleberries are made by several companies in the state and are available in grocery stores and gift shops throughout Montana.

WHEAT WEAVINGS

Wheat grows abundantly on Montana's rolling hills and plains. Many Montana artisans weave the wheat to create a variety of objects. An old craft that originated in England, wheat weaving is used to make wall hangings, corsages, centerpieces, necklaces, napkin rings and many other items. Barley, oats or any plant that has a hollow stem can also be incorporated into wheat weaving. Wheat weavings, wheat stalks and books on the subject can be found in arts and crafts stores.

INDIAN CRAFTS

Jewelry, pottery, beaded work, moccasins, baskets, dolls and many other items can be found on or near Montana's seven reservations.

WESTERN ART

Montana abounds with studios, galleries, foundries and shops specializing in Western art. The best Western art collections can be found at sales and auctions held annually in Montana. These also provide the buyer with an opportunity to meet the artists personally. The two biggest sales are the C. M. Russell Auction held in Great Falls each March and the Western Rendezvous of Art held in Helena each August.

MONTANA AGATES

Montana agates are highly prized by rockhounds all over the country. They are commonly called "moss agates" because of the tree and fern-like images within the gem. A lava product formed millions of years ago, moss agates are one of nature's true wonders. Their coloration may consist of a single color or may be in combinations of red, black, green and blue. These attractive stones are found along the lower Yellowstone River from around Custer downstream to Sidney, a distance of almost 200 miles. Moss agates and jewelry may be purchased in lapidary shops throughout the state.

You can find Montana-made products throughout the state at gift, gourmet and specialty shops, grocery and department stores.

YOU CAN MAKE A DIFFERENCE

The Montana experience is as rewarding as each visitor makes it. Here are some tips to make your trip more enjoyable and ensure a quality experience for future visitors:

- Montana has an abundance of public lands, but that comes with a responsibility to protect them. Use caution with matches, campfires, cookstoves and other flame sources to prevent wildfires.
- Noxious weeds and aquatic nuisance species also spread like wildfire. Remove obvious debris and wash vehicles, boats, trailers and recreational equipment prior to traveling from an area. Avoid parking in and walking through noxious weed-infested areas.
- Help preserve our heritage by leaving ghost towns, mining camps and other historical attractions intact. Take photographs, but nothing else.
- Leave Montana's natural features as you find them. Plants and flowers are best enjoyed in their natural state.
- Respect the rights and property of others. Always get permission before entering private land.
- Dispose of trash properly.
- For your safety and theirs, enjoy wildlife from a distance.
- We're known for our friendliness—especially when you respect our traditions, customs and local ordinances.
- Support our economy; look for the Made in Montana label when you shop.

FISHING

What License(s) Do I Need to Fish in Montana?

Age	Resident
1-11	No license required. Must observe all limits and regulations.
12-14	Conservation license only ($8).
15-61	Conservation license ($8) plus fishing license ($5 for 2 consecutive days or $18 for season, $8 for season for ages 15-17). Resident Sportsman's and Youth (12-17) Combination Sports Licenses also include a season fishing license.
62+	Conservation license only ($8).

Age	Nonresident
1-14	No license required IF accompanied by an adult that holds a valid Montana fishing license. The combined daily and possession limit for the two anglers cannot exceed the legal limit for one licensed angler. To catch his or her own legal limit, the youth must purchase a fishing license. See nonresident 15-62+ years of age.
15-62+	Conservation license ($10) plus Montana fishing license ($15 for 2 consecutive days, $43.50 for 10 consecutive days or $60 for the season). Nonresident Deer A Combo or Nonresident Big Game Combo licenses also include a season fishing license.

Yellowstone National Park requires a permit for all fishing. Anglers 16 years of age and older are required to purchase one of the following permits: 3 days–$15; 7 days–$20; annual–$35. Anglers 12-15 years of age are required to obtain a non-fee permit; those 11 years and younger may fish without a permit but must be supervised by an adult who knows the regulations. Permits are available at all ranger stations, visitor centers and Yellowstone General Stores.

Glacier National Park does not require a license, but those fishing must follow regulations available from ranger stations and visitor centers throughout the park.

Anglers should look for brown signs indicating Fishing Access Sites along roads and highways. These signs designate public access to rivers, streams and lakes for fishing. Visit the website www.fwp.mt.gov/fishing/plan.asp

Visitors wanting to fish on any of Montana's Indian reservations should contact tribal offices for regulations. (see pgs. 20-21)

NATIONAL PARKS

A Golden Eagle Pass permitting entry into all national parks as well as most federal fee collection areas, parking areas and developed day-use recreation sites is $65, valid for one year from the date of issue. Golden Age passes for U.S. citizens or permanent residents of the U.S. 62 and older are available for $10/person (one-time fee for lifetime pass). Golden Access passes for U.S. citizens or permanent residents of the U.S. who are blind or permanently disabled are free with appropriate documentation and must be obtained in person. Passes are available at entrances to the parks and most Forest Service offices. In addition to Golden Passports the parks sell the National Parks Pass, which is only honored at sites operated by the National Park Service. However, the National Parks Pass can be upgraded by purchasing a Golden Eagle Hologram for $15.

GLACIER NATIONAL PARK
Lying in a rugged section of the northern Rockies, Glacier National Park joins Waterton Lakes National Park in Alberta, Canada, to create Waterton-Glacier International Peace Park. Glacier has more than 700 miles of maintained foot and horse trails. The Going-to-the-Sun Road is a spectacular 50-mile highway through Glacier, crossing the Continental Divide at Logan Pass.

Timely and accurate road status reports are available on the park's road status web page at http://data2.itc.nps.gov/glac/roadstatus/roadstatus.cfm. Up-to-date road conditions are also available by calling 511 or 1-800-226-7623, the Montana Traveler Information System; both are toll-free.

The alpine section of the Going-to-the-Sun Road remains open until November 1, but it may close temporarily beforehand due to winter weather. Weather determines the spring opening of the alpine section. Accommodations in historical hotels and lodges are available mid-May through much of September. A Glacier annual pass valid for one year is $30. The entrance fee, valid for one week, is currently $25; reduced rates are offered in the winter. Beginning in 2007, Glacier National Park will provide voluntary free shuttle service to support the reconstruction of the historic Going-to-the-Sun Road.

Going-to-the-Sun Road restrictions: vehicles longer than 21 feet (including bumpers) and wider than 8 feet (including mirrors) are prohibited on this road between Avalanche Campground and the Sun Point parking area. Trailers and over-length vehicles may be left at campsites of parking areas. Rental cars are available at nearby towns; a shuttle service is available July and August. Call the park for details. For Blackfeet interpretive bus tours (mid-June through September) call 406-226-9220 or 800-SUN-9220; for boat tours call 406-257-2426 or 403-859-2362 (Waterton Lake only); for guided backpacking and hiking trips call 800-521-7238 or 406-387-4203; for shelter reservations at Granite Park Chalet (cook your own meals) or at Sperry Chalet (traditional lodging) call 888-345-2649. Reservation systems are available for Fish Creek and St. Mary campgrounds at 800-365-CAMP(2267). Otherwise, campsites are available on a first-come, first-serve basis.

YELLOWSTONE NATIONAL PARK
The world's first national park is renowned for its spouting geysers, bubbling mud pots, canyons, rivers and lakes, waterfalls and abundant wildlife. Yellowstone encompasses 2.2 million acres of scenic beauty. Three of the entrances to Yellowstone are in Montana—West Yellowstone, Gardiner and Cooke City.

A seven-day combination pass to Yellowstone and to Grand Teton National Park in Wyoming is currently $25 per private vehicle. There is also an annual pass (from date of purchase) to Yellowstone and to Grand Teton available for $40.

The only road open to wheeled vehicles year-round in the park is the North Entrance at Gardiner to the Northeast Entrance at Cooke City. All other entrances to the park close the Monday after the first Sunday of November to vehicle traffic. Winter season for the park begins mid-December. The park re-opens to vehicles in spring; weather conditions determine all opening/closing dates—call for details prior to leaving.

For local information and services, contact the gateway communities of Cooke City, Gardiner and West Yellowstone (see pages 142-143).

Residents may purchase a Sportsman's License, which includes a conservation, season fishing, upland game bird, state lands, elk, deer "A", and with or without a black bear license. Residents may also purchase their licenses individually. Residents and nonresidents may apply for special drawings. The deadline to apply for moose, sheep or goat is May 1. The deadline to apply for antelope and deer "B" licenses or deer and elk special permits is June 1.

For information on nonresident hunting of other species, including mountain lion, black bear, waterfowl, etc., please contact Fish, Wildlife & Parks at 406-444-2535.

Questions regarding authorized activities on Indian reservations should contact the reservation tribal offices. (see pgs. 20-21)

STATE SCHOOL TRUST LANDS

The Montana Department of Natural Resources & Conservation (DNRC) administers and manages Montana's 5.2 million acres of state school trust lands, including state forests. The agency is responsible for the stewardship, sustainability and improvement of the resources and benefits derived from these lands for current and future generations.

A State Land Recreational Use License, available from Fish, Wildlife & Parks (FWP) license providers, is required to conduct most recreational activities (except hunting, fishing and trapping) on state land. Effective March 1, 2004, a Conservation License, also available from FWP license providers, is now the license necessary to access state land to hunt and fish. While the fee for trapping on state land is now also included in a Conservation License, trappers need to acquire a Special Recreational Use License from DNRC prior to trapping on state land.

Pamphlets that provide information regarding the rules, regulations and restrictions governing these activities on state land are available from FWP offices, license providers and DNRC offices.

(See Government Agencies)

STATE PARKS

The Montana State Parks system is composed of 50 natural, cultural and recreational gems. Many sites offer camping, hiking, water sports, wildlife watching, fishing and interpretive presentations. You can tour colorful limestone caverns, dive into the crystal waters of a cool mountain lake and learn about Native American culture, dinosaur fossils and Lewis and Clark. Take advantage of the many recreational and educational opportunities waiting for you at Montana's state parks.

Entrance fees to the parks are pre-paid by Montana residents through their vehicle registration. A small entrance fee is charged to nonresidents at developed sites, and State Park Passports are also available to out-of-state visitors. The passport does not cover camping fees. Fees are subject to change.

WATCHABLE WILDLIFE

A pair of binoculars will come in handy as you discover the pleasures of one of Montana's most popular pastimes—wildlife watching. Elk, deer and antelope roam freely across Montana's vast countryside. Hundreds of different bird species, including bald eagles, hawks and great blue herons are frequently spotted. Montana is home to bison, mountain goats, bighorn sheep, mountain lions and grizzly bears. Look for the brown and white signs depicting binoculars as you travel. These point the way to designated wildlife viewing sites. A tip from the experts: the best time to see wildlife is right at dawn and, second best, at dusk. *Montana Wildlife Viewing Guides* are available for purchase through local bookstores.
